

# How to Register to Vote in Kentucky

## **First, check to see if you are already registered.**

Follow the “Count on Me” link on [www.kea.org](http://www.kea.org) or go to <https://cdcbp.ky.gov/VICWeb/index.jsp>. This is the Kentucky Board of Elections’ web site. That site will tell you the address where you are registered, your party affiliation, your precinct name and location, and your Kentucky House of Representatives, State Senate, and House of Representatives districts. It also provides a link to the county clerk where you are registered and their contact information.

## **If the information is not correct, fill out a new voter registration form.**

If you need to change your name, address or party affiliation, fill out a new registration form and return it to the county clerk’s office where you live. Check with the clerk’s office for the hours they are open.

## **If you are not registered to vote, fill out a voter registration form.**

The same form is used to change your registration and to register for the first time. Fill out the form completely and return it to the county clerk’s office where you live. Check with the clerk’s office for the hours they are open.

**Voter Registration Deadline: October 11, 2011**
